SECTION M
THIRD REVISED SHEET 2

M.1 Local Directory Assistance

M.1.1 General

The telephone company furnishes local Directory Assistance Service whereby customers may request assistance in determining telephone numbers.

M.1.2 Rates

Calls to local Directory Assistance, each.....\$.30

M.1.3 Conditions

1. These rates apply when customers request Telephone Company assistance in determining the telephone number of customers who are located in the same local service area or who are not located in the same local service area but who are located within that part of the State's Home Numbering Plan Area.
2. A customer is allowed three local Directory Assistance Service calls per telecommunications network access line, per month or fraction thereof, at no charge.
3. Call allowances are not transferable between separate accounts of the same customer.
4. Charges for local Directory Assistance Service are not applicable to calls from coin telephones, hospitals or hotels and motels to the Directory Assistance attendant or to the customer, and in the case of residence service, to the customer, his family and persons residing in the customer's household who affirm they are unable to use a Telephone Company provided directory because of a visual or physical handicap.

M.2 Non-Local Directory Assistance

M.2.1 General

Non-Local Directory Assistance (NDA) involves the supplying of assistance in determining or attempting to determine the telephone number of a party outside the company's local calling area and home NPA service area for the originating line.

M.2.2 Rates

Calls to Non-Local Directory Assistance (NDA).....\$.75

M.2.3 Conditions

1. Customers can receive up to two numbers per request for NDA. The fee applies whether or not the Directory Assistance agent furnishes the requested telephone number(s); e.g., the requested telephone number is unlisted, non-published or no record can be found.
2. A credit allowance for NDA service will be provided upon request if a customer experiences poor transmission quality, is cut off, receives an incorrect telephone number or misdials the intended NDA service number.

FIRST REVISED SHEET 2.1

M.3 Employees Telephone Service

M.3.1 General

1. Upon approval of proper officials of the Telephone Company, Employees Concession Telephone Service is available to employees of the Telephone Company in connection with telephone service at their residence.
2. The primary listing provided with the service is permitted only in the name of the employee. Extra listings for other Telephone Company employees residing at the same address are permitted but no other listed are provided.
3. Concessions to employees are allowed only at one location and only with the telephone equipment in the employee's residence.

M.3.2 Rates

1. One hundred percent (100%) discount or concession may be granted upon approval of the proper officials of the Telephone Company, to certain employees of the company where the telephone service at such discount is, and only for so long as it is, considered by the officials of the Telephone Company as being necessary or advantageous in the operation of the telephone system.
2. Concession will not be allowed for toll messages.

M.4 Off Premise Line

M.4.1 General

1. Any telephone located more than 150 feet from the premise where the telephone is located, and the Company is requested to provide a line, the telephone shall be considered off premise subject to charges in addition to a regular leased telephone.
2. For the purpose of definition, off-premise line is any line extended off-premise by use of service wire or cable pair, but does not interconnect of "bridge" with other pairs in the central office.

M.4.2 Monthly Charge

1. Each pair will be charged at the rate of \$3.00 for the first quarter mile, and \$.75 for each quarter mile or fraction of a quarter mile thereafter. The measurement of distance will be made in route mileage.
2. Each termination of each pair will be charged at the rate of \$1.75 per termination.

M.4.3 Conditions

1. May be located on the premise of another customer and restricted to answering incoming calls only provided the other has his own separate service at the same location.
2. Business off-premise line may be provided at residence location of the same customer where residence main station service is also provided.
3. Residence off-premise lines may be provided at a business location of the same customer where business main station service is also provided.
4. Mileage charge will be based upon the route measurement mileage between locations of the telephones.

Joint use of service permits a person, firm or corporation to share the use of telephone service provided to a business customer.

M.5.2 Rates

Monthly Rate

Joint User Service

50% of applicable
Business Rate

M.5.3 Conditions

1. Joint use of service will be furnished with the approval of the Company only with business individual line or PBS trunks.
2. Joint use of service will be furnished to a customer who is in a business of a secretarial nature, or of renting, or leasing space to transient or permanent tenants.
3. The joint user must be located on the premises, or in the same office, or in the same suite of offices as the customer, or in an office adjacent to and directly accessible from the customer's office.
4. A joint user will be furnished one directory listing without a charge.
5. Applications for joint use of service shall be made by the customer.
6. The customer will be responsible for all charges incurred by the joint user.
7. Additional listings and supplemental service may be furnished to the joint user at the regular rates when requested by the customer.
8. After the listing for the joint user has been included in the directory, joint use of service may not be discontinued during the life of the directory, except under the following conditions:
 - A. The customer's service is discontinued.
 - B. The joint user moves from the premise where the customer's service is located.
 - C. The joint user establishes his own primary service on the same premises.

M.6 Directory Number Hunt/Rotary Line Service

M.6.1 General

Any individual lines arranged for rotary, level hunting or similar service which allows an incoming call to a line that is called to be completed over another line by means of central office equipment will be classed as rotary lines. Rotary main service is restricted to a single premises.

M.6.2 Rates

The rate for a rotary line is \$1.00 per rotary feature.

M.7 Seasonal and Vacation Service

M.7.1 General

Seasonal and Vacation service is basic local exchange service temporarily suspended at the request of the subscriber. This service is provided to customers in all the Company's exchanges, except key system, PBX and PABX customers.

M.7.2 Rates

1. The monthly rate will be based upon 50% of the customers total Local Exchange Service, including, but not limited to extensions, and directory listing. Service may be suspended for a minimum of 30 days and a maximum of 90 days.
2. Regular service charges will apply for the suspension and subsequent reconnection of service.

M.7.3 Conditions

Seasonal and vacation services will be furnished at the company's discretion under the following conditions:

1. Service is available to all classes and grades of exchange service where the usage is of a seasonal nature.
2. During the period when the customer is billed at the reduced rate, no installation, moves, changes or maintenance will be provided by the Company.

M.8 Touchtone or Pushbutton Telephone Service

M.8.1 General

1. Pushbutton telephone service provides for the origination of telephone calls through the use of pushbutton in lieu of rotary dial.
2. The service is furnished with all grades of central office lines. It may be furnished to either one or all subscribers on party lines.
3. Pushbutton and rotary dial instruments can both be used on a subscriber line.
4. Pushbutton telephone service required special central office equipment and will be provided only from central offices where facilities are available.

M.8.2 Rates

	<u>Monthly Rate</u>	<u>Installation Charge</u>
1. Residence - per line	\$ 1.50	No Charge
2. Business - per line	\$ 2.00	No Charge

M.8.3 Conditions

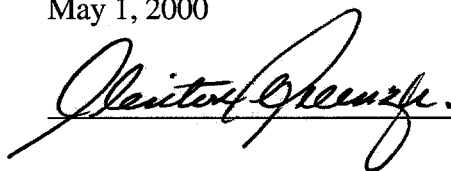

1. The charges quoted herein are in addition to the regular monthly rates for the respective types of service as provided for elsewhere in this Tariff.
2. Service Connection Charges apply as set forth in Section D to changes from rotary to pushbutton calling.

MISCELLANEOUS SERVICES

M.9 Call Screening & Restriction Services

M.9.0 Customized Code Restriction (CCR)

M.9.1 General

Customized Code Restriction is a service which enables customers to restrict certain types of outgoing/incoming calls from being placed over their exchange lines/trunks. This capability is provided only by means of recorded announcement restriction. It is offered with options containing various sets of codes to be restricted, and is available to basic exchange customers with individual line residence or business service or PBX trunks.

M.9.2 Regulations

1. Customers may subscribe to whichever option meets their needs, but only one option may be provided on a line/trunk or group of lines/trunks.
2. CCR is furnished only from central offices where facilities permit.
3. CCR does not provide restriction of non-chargeable calls to Company numbers, such as repair service, public emergency service numbers (911), or 1+800 calling.
4. Subscribing to CCR does not relieve customers of responsibility for calls charged to their numbers.
5. Customers who subscribe to CCR options which restrict operator access are required to place stickers on each restricted telephone indicating the operator cannot be reached. In addition, it is the responsibility of the customer to notify all station users of their service that an operator cannot be reached. (L)
6. The company shall not be liable to any person for damages of any nature or kind arising out of, or resulting from, or in connection with the provision of this service, including without limitation, the inability of station users to access the operator for any purpose, or any other restricted codes specified for the options.
7. CCR - Options - The codes shown for CCR options are not to be considered all inclusive. Codes may be changed and new or different codes may be added as deemed appropriate by the Company.
 - a. Option #1 Restricted Codes
1+, 0+, 00-, (1+/0+) 411, 976, NPA 900, IDDD 01+, IDDD 011+
 - b. Option #2 Restricted Codes
0-, 0+, 00-, IDDD 01+, 976
 - c. Option #3 Restricted Codes
1+, 0-, 0+, 00-, IDDD 01+, IDDD 011+, NPA 900, 976
 - d. Option #4 Restricted Codes
NPA 900, 976
 - e. Option #5 Restricted Codes
!800 Restricts - 800 and local calls can be completed. All other toll is blocked.

M.10 Teen Service

M.10.1 General

A. Teen service will enable a subscriber to have one extra telephone number associated with a single line. Customers subscribing to this service will be able to receive calls dialed to two separate telephone numbers without having a second or third line. A distinctive ringing pattern will be provided for each one of the additional telephone numbers to facilitate identification of incoming calls. A distinctive Call Waiting tone for the additional telephone number will be provided, where facilities permit, to customers subscribing to Call Waiting service.

B. Teen service is offered in the following format. Teen service consists of one additional telephone number associated with a single line.

M.10.2 Regulations

A. This service is available to individual line residence and business customers.

B. This service is not compatible with ESSX service, PBX trunk service, Prestige service, Personal paging service, Company or customer provided public telephone service, lines equipped with hunting arrangements, foreign exchange service, or with access lines terminating in customer premises switching or key equipment. Teen service may not be compatible with all types of customer provided telephone equipment.

C. Teen service is provided subject to the availability of facilities.

D. Teen service subscribers will be entitled to one listing for teen service. Other listings will also be provided under the terms and conditions described in Section F of this tariff.

E. All telephone numbers associated with a line equipped with service must originate from the same central office switching machine.

F. When establishing Teen service, Call Forwarding service subscribers must choose one of the following options. When Call Forwarding service is activated:

1. All telephone numbers associated with one line will be forwarded to a single number when Call Forwarding service is activated.
2. The main telephone number only will be forwarded when Call Forwarding service is activated. The additional teen service number will continue to ring and may be answered at the subscriber's premises.

G. Appropriate nonrecurring charges will apply when changing from one option to the other subsequent to the establishment of Teen service.

H. This Tariff sets forth rates for Teen service as described in M.10.3 following.

C. The subscriber is responsible for any applicable service charges as specified in Section D of this Tariff.

M.11 Warm Line Service

M.11.1 General

A. Warm Line service provides a customer who has basic exchange line service with a time delayed automatic dialing capability. If the customer with this service goes off-hook and initiates dialing within the time delay period, their call will proceed normally as dialed. If dialing does not commence within the time delay period, 0-30 seconds, a preprogrammed telephone number is automatically dialed. The preprogrammed telephone number and time-delay period are selected by the customer at the time service is established and can be changed only via service order. (L)

B. Warm Line service may be used only in connection with individual line service.

C. Warm Line service is furnished only from central office which have been arranged to provide this service and is provided subject to the availability of facilities.

M.11.2 Rates and Charges

N.1 Regulations

Customer-provided communications systems may be used with the facilities furnished by the Company for telecommunications services as provided in this tariff. In all such cases the customer-provided communications systems will be constructed, maintained and operated as to work satisfactorily with the facilities of the Company, and to meet all published standards of the Federal Communications Commission (FCC).

Subscribers may not disconnect or remove or permit others to disconnect or remove any apparatus installed by the Company, except upon the consent of the Company.

Where telecommunications service is available under this tariff for use in connection with customer-provided communications systems, the operating characteristics of such equipment or system shall be such as not to interfere with any of the service offered by the Company. Such use is subject to with any of the service offered by the Company. Such use is subject to the further provision that the customer-provided equipment or system does not endanger the safety of Company employees or the public; damage, require change in or alteration of, the equipment or other facilities of the Company; interfere with the proper functioning of such equipment or facilities; impair the operation of the Company's service. Upon notice from the Company that the customer-provided equipment or system is causing or is likely to cause such hazard to interference, the customer shall make such change as shall be necessary to remove or prevent such hazard or interference. The customer shall be responsible for the payment of Company charge in Section D, "Maintenance of Service Charge," for visits by the Company to the customer's premises where a service difficulty or trouble report results from customer-provided equipment or system.

The Company shall not be responsible for the installation, operation or maintenance of any customer-provided communications systems. Telecommunications service is not represented as adapted to the use of customer-provided equipment or systems and where such are connected to the Company facilities the responsibility for telecommunications service and to the maintenance and operation of such facilities in a manner proper for such telecommunications service; subject to this responsibility, the Company shall not be responsible for (1) the through transmission of signals generated by the customer-provided equipment or systems or for the quality of, or defects in such transmission, or (2) the reception of signals by customer-provided equipment or system.

GENERAL SUBSCRIBER SERVICES TARIFF

Logan Telephone Cooperative
Incorporated

PSC 2
Section N
Original Sheet 3

The Company shall not be responsible to the customer if changes in the criteria outlined herein or in any of the facilities, or procedures of the Company render any customer-provided equipment or communications systems inoperable or otherwise affect its use or performance.

The Company will not be responsible for any loss or damage, nor for any impairment or failure of the service, arising from or connection with the use of facilities of customers and not caused solely by the negligence of the Company.

Where any customer-provided equipment or system is used with telecommunications service in violation of any of the provisions in this tariff, the Company will take such immediate action as necessary for the protection of its services, and will promptly notify the customer of the violation. The customer shall discontinue such use of the equipment or system or correct the violation and shall confirm in writing to the Company within 10 days, following the receipt of written notice from the Company, that such has ceased or that the violation has been corrected. Failure of the customer to discontinue such use or to correct the violation and to give the required written confirmation to the Company within the time stated above shall result in termination of the customer's service.

Customer-provided systems which serve a location which the Company considers impracticable to serve because of hazard of inaccessibility may be connected with telecommunications service by means of connecting equipment furnished by the Company.

The customer indemnifies and saves the Company harmless against claims for infringements of patents rising from combining such equipment or system with, or using it in connection with, facilities of the Company; and against all other claims arising out of any act or omissions of the customer in connection with facilities provided by the Company.

No equipment, apparatus, circuit or device not furnished by the Company shall be attached to or connected with the facilities furnished by the Company, except as provided in this Tariff. In case unauthorized attachments or connections are made, the Company shall have the right to remove or disconnect the same; or to suspend the service during the continuance of said attachments or connection; or to terminate service.

N.2 Network Protection Criteria

To protect the telecommunications network and the services furnished to the general public by the Company from harmful effects, the signal from the customer-provided communications system to the long distance

message telecommunications network must comply with the following minimum network protection criteria;

1. Where the customer-provided communications system is connected, the customer-provided communications systems must comply with the following criteria:

A. To prevent excessive noise and crosstalk in the network it is necessary that the power of the signal at the central office not exceed 12 db below one milliwatt when averaged over any three second interval. To permit each customer, independent of distance from the central office, to supply signal power which approximates the 12 db below one milliwatt limit at the central office, the power of the signal which may be applied by the customer-provided equipment located on the customer's premises will be specified for each customer's location, but in no case shall it exceed one milliwatt.

B. To protect other services it is necessary that the signal which is applied by the customer-provided equipment located on the customer's premises meets the following limits:

a. The power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18 db below the power of the signal as specified in N.2.1.1.

b. The power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16 db below one milliwatt.

c. The power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24 db below one milliwatt.

d. The power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 24 db below one milliwatt.

e. The power in the band above 40,000 Hertz shall not exceed 50 db below one milliwatt.

C. To prevent the interruption or disconnection of a call, or interference with network control signaling, it is necessary that the signal applied by the customer-provided equipment located on the customer's premises at no time has energy solely in the 2450 to 2750 Hertz band, it must be exceed the power present at the same time in 800 to 2450 Hertz band.

2. Where the customer-provided communications system is connected, the customer-provided communication system must comply with the following criteria:

Section N
Original Sheet 5

A. To prevent excessive noise and crosstalk in the network it is necessary that the power of the signal which is applied by the customer-provided equipment located on the customer's premises be limited so that the signal power at the output of the network control signaling unit (i.e., at the input of the Company line) does not exceed 9 db below one milliwatt when averaged over any three second interval.

B. To protect other services it is necessary that the signal which is applied by the customer-provided equipment located on the customer's premises meet the following limits at the output of the network control signaling unit (i.e., at the input to the Company line):

a. The power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18 db below the power of the signal as specified above in N.2.2.1.

b. The power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16 db below one milliwatt.

c. The power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24 db below one milliwatt.

d. The power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 36 db below one milliwatt.

e. The power in the band above 40,000 Hertz shall not exceed 50 db below one milliwatt.

C. To prevent the interruption or disconnection of a call, it is necessary that the signal applied by the customer-provided equipment located on the customer's premises be limited so that the signal at the input to the Company line shall at no time have energy solely in the 2450 to 2750 Hertz band. If there is signal power in the 2450 to 2750 band, it must not exceed that power present at the same time in the 800 to 2450 Hertz band.

N.3 Customer-Provided Communications Systems

Customer-provided systems may be connected, at a service point of the customer, on a voice grade basis with telecommunications service furnished by the Company, through customer-provided equipment which affects such connections externally to the a Company by means of physical connection for transmitting and/or receiving. The customer-provided system shall comply with the minimum protection criteria contained in N.2.2 and N.2.3.

DATA SERVICE

O.1 Concurrence

Logan Telephone Cooperative, Inc., hereinafter called the concurring utility, assents to, adopts and concurs in the Data Transmitting and Receiving Equipment Tariff, filed with the Kentucky Public Service Commission by South Central Bell Telephone company, hereafter called the issuing utility, as such Tariff now exists, or as it may be revised, added to or supplemented by superseding sheets or issues, for data services furnished by the issuing utility and concurring utility, and hereby makes itself a party thereto and obligates itself to observe each and every provision thereof. (D)

O.2 Exceptions

Minimum service period for Data Service is twelve months. Customers of this Company or those of other connecting customer will be required to enter into a termination agreement with this Company, covering cost of establishing service for the minimum service period. Terminating Agreement must be signed and in the possession of the Company before service will be established. (D)

DATA SERVICE

01 General

- A. Datatel service is a digital, switched service that provides full duplex, 56 kilobits per second information transport via a specially equipped two-wire Datatel Access Line. (N)
- B. Datatel access lines allow a maximum of 56 kbps digital calls, except as in 01.2C. Datatel access lines are not voice functional. (N)

01.2 Regulations

A. Explanation of Terms

DATATEL ACCESS LINE

The term Datatel Access Line refers to the non-loaded facility connecting the customer premises to the Datatel switching equipment and is similar to an individual business line. (N)

DATATEL ARRANGEMENT

The term Datatel Arrangement refers to the equipment required in the Central Office per line to support 56 kbps data transport over the Datatel Access Line (N)

DATATEL NETWORK CALL

A Datatel Network Call refers to a call placed from one Datatel Local Line to another Datatel Local Line whether or not the lines are served from the same Datatel Serving Central Office. (N)

DATATEL NORMAL SERVING AREA

The Datatel Normal Serving Area is defined by the technical limitations of each specific serving arrangement and in the Company's judgment are necessary to accommodate the data transmission without excessive degradation. (N)

01.2 Explanation of Terms (Continued)

DATATEL REMOTE ACCESS LINE

The term Datatel Remote Access Line refers to a Datatel Access Line when the service is provided using the Datatel Remote Capability. (N)

DATATEL REMOTE CAPABILITY

The term Datatel Remote Capability refers to the facilities and equipment necessary to extend a Datatel Access Line to certain customers who are served by central offices other than a Datatel Serving Central Office. (N)

DATATEL SERVING CENTRAL OFFICE

The term Datatel Serving Central Office refers to the Central Office containing Datatel switching equipment. (N)

SERVING WIRE CENTER

The term Serving Wire Center denotes the local telephone central office assigned to subscribers in a well defined area. A Serving Wire Center may be further designated by the Company as a Datatel Serving Central Office. (N)

B. Basis of Offering

1. Datatel service is furnished in conjunction with intraLATA communications provided by the Company. InterLATA communications are supported through the Access Service Tariff. (N)
2. Datatel service is provided subject to the availability of appropriate network facilities and is normally provided from the closest designated Datatel Serving Central Office. Telephone numbers for Datatel Access Lines will be assigned from the Datatel Serving Central Office. (N)
3. The minimum billing period will be one month.

01.2 Basis of Offering (Continued)

4. The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of Datatel service render any facilities provided by a customer obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance. (N)
5. Suspension of service is not allowed. (N)
6. Regulations for Allowance for interruptions apply as specified in B4.7 of this Tariff. (N)
7. When Datatel Remote Capability is purchased, the mileage charges will be calculated as follows:
The interoffice mileage charge will be based on the airline mileage between the Datatel Serving Central Office and the customer's Serving Wire Center. Airline distance between Company central offices is to be developed from V&H coordinated listed in the National Exchange Carrier Association (NECA) Tariff, FCC No. 4. (N)

C. Provision of Service

1. Calls placed on Datatel Access Lines to other Datatel Access Lines will be billed as shown in 01.3.D. Datatel Network calls will be billed for each increment of usage or portion thereof. (N)
2. Usage will be billed to the originating end of the Datatel Network Call. Toll charges, if applicable, will apply in addition to the Datatel service rates and charges. (N)
3. Datatel service requires the use of customer premise equipment which is compatible with Company facilities. (N)
4. Touchtone signaling is required for each Datatel Access Line. (N)
5. Datatel Access Lines may be provided with hunting service similar to individual business lines. If Directory Number Hunting is desired, flat rate Directory Number Hunting would apply as stated in Section this Tariff. (N)

CUSTOM CALLING SERVICE

S.1 Basic Custom Calling Service

S.2 Definition of Feature Offerings

A. Call Waiting

Provides the user, busy on a call, with a private signal which alerts him to an unanswered call waiting to be completed to his number. The user may, then, hold the existing call, answer the incoming call and alternately talk on both calls until one has been terminated.

B. Call Forwarding

Provides for transferring incoming calls to another telephone number by dialing a code and the telephone number of the service to which calls are to be transferred. Satisfactory transmission levels cannot be assured on calls forwarded outside of the local calling area.

C. Three-Way Calling

Permits an existing call to be held, and by dialing, a second telephone call can be established and added to the connection. Two toll points may be connected on a Three-Way Calling. Normal transmission performance cannot be assured on all calls. (T)

D. Speed Calling

Provides for the calling of a 7 or 10 digit telephone number by dialing an abbreviated code. The arrangement available has an eight (8-code) and thirty (30-code) number capacity.

S.3 Provision of Service

A. The services are limited to those areas served by central offices arranged for Custom-Calling Services.

B. The services are furnished only in connection with individual line service. The service is not available in connection with private branch exchange, coin telephone service and some special types of station instrumentation.

B. Feature Packages

1. A discount of \$.50 on each service after the first feature will apply, when two or more service features are ordered in a package.
2. Regular Service Connection Charges apply as set forth in Section D on initial or subsequent installations.

S.5 Advanced Custom Calling Services

S.6 Applications

A. Advanced custom calling services are a family of incoming and outgoing call management services offered in addition to basic telephone service that allow business and residential subscribers to screen, redirect or return selected calls.

S.7 Definition of Feature Offerings

A. Anonymous Call Rejection (ACR)

This feature allows subscribers with or without Calling Name Delivery and/or Calling Name Delivery to reject calls for which the caller has intentionally blocked Calling Name/Number Delivery information.

If the display information is not available due to network restrictions or any other reasons, the receiving CPE (telephone or adjunct), if equipped, is presented with a message to indicate the unavailability of the calling information.

Rejected calls are sent to a telephone company-supplied announcement that informs the calling party why the call was rejected. Anonymous Call Rejection can be overridden by an operator in case of an emergency.

Section S
First Revised
Sheet 4

S.7 Definition of Feature Offerings (Continued)

B. Automatic Call back (ACB)

By dialing the ACB activation code, a subscriber directs the switch to recall the DN of the last outgoing call from his set. The switch will set up the call to that DN whether or not the called party answered the original call. Therefore, without having to redial the DN, the subscriber can use ACB either to contact a party he has been unable to reach or continue an interrupted discussion.

(L)

If the called line is busy, the switch queues the ACB request and delays processing of the call until both the called and calling parties are idle. Once both lines are idle, the switch first applies distinctive ringing to the calling line to alert the subscriber that the requested callback is ready to be set up.

When the calling subscriber goes off-hook in response to the distinctive ring, the switch processes the call and applies normal ringing to the called line. An ACB request is removed from the queue when the switch successfully set up the call (i.e., rings the called party) or when the request times out (after 30 minutes).

C. Automatic Recall (AR)

By dialing the AR activation code, an AR subscriber directs the switch to recall the DN of the last incoming call to his set. Beyond the convenience of having the switch automatically set up the call, the subscriber can return a missed call without having to know the DN of the calling party.

If the called line is busy, the switch queues the ACB request and delays processing of the call until both the called and calling parties are idle. Once both lines are idle, the switch first applies distinctive ringing to the calling line to alert the subscriber that the requested callback is ready to be set up. When the calling subscriber goes off-hook in response to the distinctive ring, the switch processes the call and applies normal ringing to the called line. An ACB request is removed from the queue when the switch successfully set up the call (i.e., rings the called party) or when the request times out (after 30 minutes).

GENERAL SUBSCRIBER SERVICES TARIFF

Logan Telephone Cooperative
Incorporated

PSC
Section S
First Revised
Sheet 5

S.7 Definition of Feature Offerings (Continued)

D. Automatic Recall-Block to Private

This feature prohibits a call being returned to a number which (N)
was delivered with a "private" delivery status. This modification
prevents subscribers being called back using AR and identified
upon answer.

E. Calling Number Delivery (CND)

With Calling Number Delivery (CND), the subscriber can view the
DN of an incoming call before answering. After the first ring
to alert the subscriber, the switch sends the ten-digit calling
DN and the current month, day, hour, and minute.

The CND feature requires a terminal capable of recognizing and
displaying the calling DN sent from the switch.

Any customer subscribing to Calling Number Delivery will be
responsible for the provision of a display device when will
be located on the customer's premises. The installation,
repair and technical capability of that equipment to function
to conjunction with the feature specified herein will be the
responsibility of the customer. The Company assumes no (L)
liability and will be held harmless for any incompatibility of
this equipment to perform satisfactorily with the network
features described herein.

Calling Number Delivery (CND) is not available on operator-
handled calls.

F. Calling Number Delivery Blocking (CNDB)

1. Calling Number Delivery Blocking - Per Call

For outgoing calls, a CNDB subscriber can prevent delivery of
his DN to the called party. On a per-call basis, the subscriber
blocks display of his DN by dialing the CNDB activation code.
Upon receiving the code, the switch returns dial tone again,
and the subscriber enters the DN to be called. If the call is
completed (i.e., the called party's line is rung), the
terminating CLASS office sends a "P" (indicating private number)
to the called party's terminal in place of the calling DN.

This feature will be available without presubscription.

Logan Telephone Cooperative
Incorporated

PSC
Section S
First Revised
Sheet 6

S.7 Definition of Feature Offering (Continued)

F. Calling Number Delivery Blocking (CNDB) (Continued)

2. Calling Number Delivery Blocking - Per Line

This feature enables a customer to make all calls with the delivery of their calling number marked as "private". The feature is applicable on all outgoing calls placed from the customer's line; however, if the preassigned activation code for Calling Number Delivery Blocking-Per Line is dialed on the line, the calling number may be delivered.

This service is only available upon request to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers where the head of the agency certifies to Telephone Company management a need for blocking upon health and safety concerns: (a) Nonprofit, tax exempt, private and public social welfare agencies such as domestic violence intervention agencies, (b) federal, state and local law enforcement agencies.

(L)

Operator services and 9-1-1 service takes precedence over Calling Number Delivery Blocking - Per Call and Per Line service with all calling numbers available regardless of the privacy status.

G. Calling Name/Number Delivery (CNAM)

Calling Name Delivery displays the name and ten digit telephone number associated with an incoming call as well as the date and time on the telephone set or adjunct unit after the first ringing cycle. The first fifteen characters of the customer's name will be displayed, beginning with the last name. This service will be offered in conjunction with Calling Number Delivery. Name/Number display allows the subscriber to answer the call with a personalized greeting. With this service, the subscriber has more specific information upon which to base the decision to answer or not.

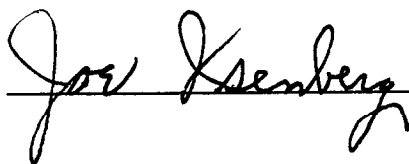

(N)

CNAM requires a telephone set or an adjunct to the set, capable of displaying an alphanumeric set of characters.

G. Calling Name/Number Delivery (CNAM) (Continued)

Any customer subscribing to any of the services that required a display device or any adjunct piece of equipment which will be located on the customer's premises, will be responsible for that equipment. The installation, repair and technical capability of that equipment to function in conjunction with these features specified herein will be the responsibility of the customer. The company assumes no reliability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

H. Calling Name Delivery Blocking (CNAB)

1. Calling Name Delivery Blocking - Per Call

Calling Name Delivery Blocking is an originating CLASS feature which provides the capability to the calling party to suppress his/her name so that the called party with Calling Name Delivery does not receive the information. The called party will receive a "private" message instead of the calling party's name.

CNAB allows the subscriber to temporarily change the status of his/her line suppression status on a per-call basis. CNAB is made available to all subscribers on an office-wide basis without presubscription.

2. Calling Name Delivery Blocking - Per Line

This number suppression feature enables a customer to make all calls with the delivery of their calling name marked as "private". The feature is applicable on all outgoing calls placed from the customer's line; however, if the preassigned activation code for Calling Name Delivery Blocking - Per Call is dialed on the line, the calling name may be delivered.

This service is only available upon request to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers where the head of the agency certifies to Telephone Company management a need for blocking upon health and safety concerns: (a) Non-profit, tax exempt, private and public social service agencies such as domestic violence intervention agencies; (b) federal, state and local law enforcement agencies. PSC 2
Section S
Second Revised
Sheet 8

S.7 Definition of Feature Offerings (Continued)

H. Calling Name Delivery Blocking - Per Call (Continued)

Operator services and 911 services take precedence over CNAB - Per Call and Per Line service with all calling names available regardless of privacy status.

Although the caller's name can be blocked from display by CNAB Per Call and Per Line, the name is still transmitted to the terminating CLASS end office. Therefore, the called party (if a CLASS customer) can still use the Automatic Recall, Customer Originated Trace and CLASS screening features against the calling party.

I. Calling Identity Delivery and Suppression (CIDS)

For subscriber convenience, Calling Identity Delivery and Suppression (CIDS) lets the subscriber determine whether calling name and number will be delivered within a specific call. When the CNND access code is entered followed by a valid directory number, the privacy status for the calling party name and number is marked "public" and the calling name and number are delivered to the terminating party. When the CNNB access code is entered followed by a valid directory number, the privacy status for the calling party name and number is marked "private" and a "P" is delivered to the terminating party.

1. Calling Identity Delivery and Suppression Blocking - Per Call

CIDS allows the subscriber to temporarily change the status of his/her line suppression status on a per-call basis. CIDS is made available to all subscribers on an office-wide basis without presubscription.

2. Calling Identity Delivery and Suppression - Per Line (Private Number)

This feature is applicable on all outgoing calls placed from the subscriber's line; however, if the preassigned activation code (*67) for Calling Number Delivery Blocking - Per Call is dialed on the line, the calling number may be delivered.

Second Revised
Sheet 9

S.7 Definition of Feature Offerings (Continued)

J. Customer Originated Trace (COT)

Customer Originated Trace (COT) allows a subscriber to initiate a trace of a harassing or obscene call without first having to obtain legal authorization or telephone company assistance.

The subscriber starts the trace by dialing the COT activation code. The switch retrieves the DN of the last incoming call. The switch immediately outputs the DN to a terminal at local telephone company. An announcement will be provided to the subscriber informing him of the successful trace.

The customer using this feature would be required to contact their servicing law enforcement agency and have presented to the Telephone Company a District Court order authorizing results of traces initiated by the customer to be released directly to the proper authorities for legal handling. There will be a charge (L) to the customer for each annoyance call reported provided. The customer acknowledges their understanding that under no circumstances will trace results be provided directly to the customer.

K. Distinctive Ringing/Call Waiting (DR/CW)

DR/CW provides special treatment for calls received from customer specified telephone numbers. The customer creates a screening list containing up to 12 DN's through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers, the customer is alerted with a distinctive ringing pattern or call waiting tone. Calls from telephone numbers not included on the screening list will produce a normal ringing pattern or call waiting tone.

S.7 Definition of Feature Offerings (Continued)

L. Local Data Base Service (LDBS)

Local Data Base Service offers subscribers protection against unauthorized 900 and other toll calls placed from their telephones, and allows name-based dialing without additional customer premises equipment.

LDBS feature provides four originating call control features that can be made available to any subscriber with a touchtone phone. All features work with a four-digit Personal Identification Number (PIN) that subscribers can change from their phones at any time. If a subscriber buys one feature and later buys others, the same PIN can be used for the additional features.

The four features provided by LDBS are:

(N)

1. 900 RESTRICTION allows subscribers to control the access to 900 numbers from their phone keypad. All 900 number can be restricted or allowed by entering an activation/deactivation code which includes the subscriber's PIN. A list of 900 NXX codes can also be restricted or allowed.

2. SUPER SPEED CALLING allows subscribers to store a four-digit speed dialing list in the LDBS. The name (four letters) instead of the entire directory number of the called party can be entered from the keypad. This feature is not compatible with One-Plus Per Call Restriction.

3. ONE-PLUS PER CALL RESTRICTION requires a PIN to be dialed before any toll call can be completed. Once the PIN has been validated by the LDBS, dial tone is returned to the subscriber and dialing can continue. This feature allows subscribers to control billable calls originating from their phone by requiring the PIN to be dialed with each toll call. This feature is not compatible with Super Speed Calling.

4. ONE-PLUS BULK RESTRICTION allows subscribers to turn toll dialing capability on or off from their phone by dialing an activation/deactivation code which includes the PIN.

FEB 20 1995

M. Selective Call Forwarding (SCF)

Selective Call Forwarding allows the customer to transfer selected incoming calls to another telephone number. A screening list containing up to 12 DN's is created by the customer and placed in the network memory via an interactive dialing sequence. Subsequently, calls are forwarded only if the calling number can be obtained and is found to match a number on the screening list.

LOGAN TELEPHONE COOPERATIVE, INC.

PSC 2
SECTION 5
SECOND REVISED
SHEET 11

S. 7 Definition of Feature Offerings (Continued)

N. Selective Call Rejection (SCR)

This feature allows the subscriber to have the switch automatically reject calls from DN's on the customer's predesignated screening list. When a call is placed to the customer's number from a number on the screening list, the caller receives an announcement indicating that the party he is attempting to call does not wish to receive calls at this time.

O. Selective Call Acceptance (SCA)

Selective Call Acceptance screens incoming calls against a list of subscriber-specified directory numbers (DN's) and then accepts any calls from those numbers. Calls from other DN's are denied access to the subscriber's line and are routed to a recording. A screening list of up to 12 members is created by the subscriber.

P. Voice Mail (Deleted Section)

Q. Call Waiting Deluxe (CWD)

Provides the user, busy on a call, with a private signal to another incoming call and, when available, provides the name and number of the caller. This feature requires equipment, at the customer's expense, that is capable of recognizing and displaying the alphanumeric characters sent from the switch. The user may then choose to hold the existing call, answer the incoming call and alternately talk on both calls until one or both has been terminated.

S. 8 Regulations and Limitations of Service

A. The services are provided subject to the availability of facilities and technical limitation and limited to the Company's central offices specifically equipped to provide such service. Also, feature screening list can only contain telephone numbers of subscribers served out of the Company's properly equipped offices.

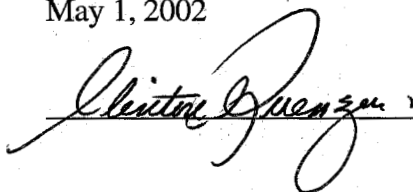

B. Advanced Custom Calling Services are available to single party and multiple-line resident and business customers who have rotary dial or touchtone service.

Logan Telephone Cooperative,
Incorporated

PSC
Section S
First Revised Sheet
Sheet 14

C. Service and Installation Charges (Continued)

3. The company will from time to time offer special promotions on CLASS Services and Custom Calling Features to its customers. During these selected periods, which may range from 30 to 90 days, all customers will be notified that they can receive the specified promotional discount. This discount may include waiving the initial month's monthly recurring service charge on the specified feature(s). We may offer other like promotions under the same guidelines as this tariff. (C)

4. The notice stating the length of the special promotional period shall be advertised to our customers through bill inserts and promotional materials located in the Logan Telephone business office. Notice shall be given in time to allow each customer a minimum of one month in which to subscribe to the service(s) during the special promotional period.

CATV POLE ATTACHMENT

X.1 APPLICATION OF TARIFF

(N)

- X.1.1 This tariff contains regulations and charges applicable to the provision of attachment space for cable television facilities on poles of Logan Telephone Cooperative, hereinafter referred to as the "Company".
- X.1.2 The terms and conditions contained herein apply where the CATV operator, as a customer of the Company, proposes to install coaxial or other types of television distribution cables, amplifiers and drop wires, wires, and appliances together with associated cable messengers, anchors and other appurtenances (hereinafter sometimes collectively called the "equipment").

X.2 DEFINITIONS

- X.2.1 Poles - All references to "poles" of the Company shall mean poles which are either solely owned by the Company, are jointly owned by the Company and another or are owned by another who has granted the Company exclusive use and control of space upon its poles.
- X.2.2 Pole Attachment - This term means any attachment by a CATV firm to a pole owned or controlled by the Company.
- X.2.3 Cable Duct Space - Not available.
- X.2.4 Equipment - The "equipment" referred to herein consist of coaxial or other types of television cables, amplifiers and drop wires, wires and appliances together with associated cable messengers, anchors, and other appurtenances used in the provision of CATV service.
- X.2.5 Joint User - All references herein to "joint user" shall mean a utility company or municipality which, together with the Company, jointly provides poles for common use in the provision of service of the respective entities, and shall also include a utility company or municipality which, together with the Company, owns a percentage of a pole, or which owns a pole upon which the Company has obtained exclusive use and control of specified space.

PSC 2
Section X
Original Sheet 2

CATV POLE ATTACHMENT

X.2 Definitions (Continued)

(N)

X.2.6 Cable Television Company or Operator (CATV) - All references herein to "CATV Company and/or Operator" shall mean a company which provides CATV service.

X.2.7 CATV Service - All references herein to "CATV service" shall mean the transmission, by means of coaxial or other types of distribution cables, of television audio and video signals from a central point within an exchange of the Company to subscribers of a CATV company within such exchange.

X.2.8 Anchors - Will not be provided by Logan Telephone Cooperative, Inc.

X.3 SCOPE

X.3.1 Subject to the terms and conditions contained in this tariff, the Company will provide CATV pole attachment space and permit a CATV operator, for the purpose of furnishing CATV service, to install its equipment upon such of the Company's poles as are, in the judgement of the Company, suitable and available for such installation and where such use will not interfere with the Company's own service and safety requirements or, where it may be advised, the service and safety requirements of other joint users, to meet all electrical and safety codes.

X.3.2 The CATV company shall secure from the proper franchising authority, a franchise to erect and maintain its equipment within public streets, highways and other thoroughfare, provided such franchising authority exists and shall secure any and all consents, permits, licenses, easements or rights-of-way that may be legally required for its operation hereunder. The CATV company shall additionally provide to the Company a map depicting the franchised area in which pole attachments may be applied for by the CATV company.

X.3.3 The CATV company shall assist in, and bear the expense of securing any additional consents, permits, or licenses that may be required by the Company because of CATV pole attachments.

CATV POLE ATTACHMENT

X.3 Scope (Continued)

(N)

X.3.4 The franchises, consents, permits, licenses, easements and rights-of-way of the Company are for its own facilities and the provision of its other services. No rights in such franchises, consents, permits, licenses, easements or rights-of-way are conferred upon any CATV company hereunder.

X.4 APPLICATION FOR PERMISSION TO INSTALL

X.4.1 At least forty-five (45) days prior to the time the CATV company desires to attach its equipment to any of the Company's poles, the CATV operator shall make written application on the form prescribed to the Company. The Company shall in turn, notify the CATV company in writing of its permission to allow the installation.

X.4.2 Where the application for attachment involves joint-use poles, the CATV operator shall so indicate in its application, and provide a copy thereof to the joint user. Permission to attach to joint-use poles shall be subject to the Company obtaining approval from such joint user when necessary.

X.4.3 Upon notification by the Company of its permission for pole space to be used by the CATV company, the CATV company shall have the right, subject to the SPECIFICATIONS contained herein, to install, maintain and use its equipment described in its application, upon the poles identified in its application. The CATV company shall complete each installation within such time limit as may be specified by the Company; provided, however, that before commencing any such work sufficiently in advance so that the Company may arrange to have any necessary representative present when such work is performed. In the event the presence of a Company representative is required, the CATV company shall reimburse the Company for the cost and expense of such.

X.4.4 Where costs are involved in the rearranging of the Company's facilities to accommodate the CATV company's equipment, the Company shall notify the CATV company, in writing, of the changes and rearrangements required and the cost for performing such. Approval of the application by the Company is subject to receiving authorization from the CATV company to make the rearrangements detailed by the Company, at the CATV company's sole risk and expense.

CATV POLE ATTACHMENT

X.4 Application For Permission To Install (Continued)

(N)

X.4.5 The CATV company shall not have the right to place, nor shall it place, any additional equipment upon any pole without first making application and receiving the Company's permission to do so, as provided for in this tariff; nor shall the CATV company change the position of any equipment attached to any such pole without the Company's prior written approval. The provisions of this paragraph shall not restrict the attachment of television drops to television crossarms or television cable messenger. Unauthorized attachments or installation shall be subject to penalty and/or special "make-ready" charges set forth in this tariff.

X.5 ATTACHMENT SPECIFICATIONS

X.5.1 The CATV company, at its own cost and expense, shall construct, maintain and replace its attachments on the Company's poles in accordance with (1) such requirements and specifications as the Company shall prescribe and have on file with the Commission, (2) EEI Publication M12 entitled "Specifications for the Construction and Maintenance of Jointly-Used Wood Pole Lines Carrying Supply and Communication Circuits", (3) the requirements and specifications of the National Electrical Safety Code, 1981 Edition, and any amendments or revisions of said specifications or code, and (4) in compliance with any rules or orders now in effect or that hereafter may be issued by the Public Service Commission of Kentucky or other authority having jurisdiction. The CATV company shall comply, at its sole risk and expense, with changes and revisions in the above specifications and requirements.

CATV POLE ATTACHMENT

X.6 INSTALLATION AND MAINTENANCE OF CATV EQUIPMENT

(N)

X.6.1 The exact location of the CATV company's attachments on poles shall be determined by the Company in its sole discretion after a joint survey to be made, at such times as shall be mutually agreed upon, by representatives of the telephone company and the CATV company. The Company may make periodic inspections as conditions may warrant. Such inspections shall not operate to relieve the CATV company of any responsibility, obligation, or liability assumed under this tariff. When substandard installations are found which are created by the CATV operator, the Company shall give forty-eight (48) hour notice of such to the CATV company, and the CATV company shall remedy such conditions within forty-eight (48) hours time as directed by the Company. In the event the CATV company fails to remedy the condition within 48 hours time prescribed, the Company may act to remedy it with the cost of such to be paid by the CATV company.

X.6.2 Where reasonable cause exists, the Company, at its option and at the sole risk and expense of the CATV company, may make the attachment or replacement of the CATV's equipment to Company poles. In such cases, the CATV company will furnish all such materials and equipment, and will reimburse the Company for the entire installation costs incurred. The CATV company shall deposit with the Company, prior to such installation, sufficient sums estimated by the Company to be adequate to reimburse it for such work.

X.6.3 Where the CATV company's equipment can be accommodated on Company poles by rearranging or changing the Company's facilities, the CATV company shall pay the Company in advance the cost of making such rearrangements or changes. Strengthening of poles (guying) required to accommodate the attachments of the CATV company and the bonding of the CATV's strand to that of the Company shall be performed by the CATV company at its sole risk and expense. Such work may be performed by the Company when reasonable cause therefore exists, and the CATV company shall pay the Company in advance the cost of such work. (N)

CATV POLE ATTACHMENT

X.6 Installation and Maintenance of CATV Equipment (Continued) (N)

X.6.4 After initial attachment, when the Company subsequently required a change in its poles, attachments thereto for reasons unrelated to CATV operations, the CATV company shall be given reasonable notice of the changes required and sufficient time to accomplish the CATV related change. If the CATV operator is unable or unwilling to meet the Company's time schedule for changes in attachments, the Company may do the work and charge the CATV company its reasonable costs for performing the change of CATV equipment. In cases of emergency, the Company may, at the CATV company's sole risk and expense, arrange to relocate or replace the facilities attached to Company poles by the CATV operator, transfer them to substituted poles or perform any other work in connection with said facilities that may be required in the maintenance, replacement, removal, or relocation of said poles the facilities thereon or the equipment which may be placed thereon.

X.6.5 All required maintenance of CATV equipment shall be performed by the CATV operator. No entry shall be made into any facility housing without the prior written permission of the Company. The Company reserves the right to require the presence of its representative at the time of any such entry, with the cost thereof to be reimbursed by the CATV company. An estimate of such cost shall be furnished at the time the Company gives its written permission for entry.

X.6.6 All tree trimming required on account of CATV equipment shall be done by the CATV operator at sole risk and expense and in a manner satisfactory to the Company.

X.6.7 The CATV company shall, at its sole risk, maintain all of its equipment on Company poles in safe condition and in thorough repair.

X.6.8 Nothing herein contained shall give to the CATV company the right to place a crossarm on any Company pole. If a crossarm is required to accommodate the facilities of the CATV company, the CATV company shall state their reasons in its application for attachment.

X.6 Installation and Maintenance of CATV Equipment (Continued)

(N)

X.6.9 The CATV company shall not at any time make any additions to, or changes, in, the location of its attachments on poles or equipment without the prior written consent of the Company, except in cases of emergency when oral permission has been obtained from the Company and subsequently confirmed in writing.

X.6.10 If the CATV company should require the location of its equipment upon any public thoroughfare or other public or private property in the conduct of its business and the Company does not have pole facilities so located to fulfill CATV requirements and has no immediate need for such for the Company's own use, the Company will notify the CATV operator whether the Company is willing to place such pole facilities. Special rental charges shall be agreed to by the CATV company prior to the Company's placement of such pole facilities, and the rental charges specified herein shall not apply. The special rental charges shall be based upon the total use of the pole facilities by the CATV company. In the event such pole facilities are subsequently used by the Company for the provision of its other services, the special rental charges shall no longer apply, and the rental charges specified in this tariff shall apply.

X.6.11 Whenever, pursuant to this tariff, the CATV company shall be required to remove its equipment from any pole, such removal shall be made within thirty (30) days following the notice given by the Company to the CATV, except as otherwise specifically provided. Upon failure of the CATV company to remove such equipment within thirty (30) days or as otherwise required, the Company may remove them and charge the CATV company all costs associated with such removal.

X.6.12 The CATV company shall interset poles where the Company facilities are not located and shall not interpose poles, guys, or other facilities where they will not interfere with access to Company poles, and shall abide by N.E.S. Code.

(N)

X.7.1 Whenever the CATV company applies for permission to attach to a pole that is considered by the telephone company to be insufficient in height or strength for accommodation of CATV attachments, the Company shall notify the CATV operator of such fact and of the estimated cost to the CATV company of replacing such pole with a pole which will accommodate the attachments of the CATV company and the telephone company. Within thirty (30) days of such notification, the CATV company shall either notify the Company (1) of its approval of such replacement or (2) of its cancellation of the application with respect to such pole.

X.7.2 In the event of CATV's approval of such replacement, the Company shall replace the pole and the CATV operator shall pay to the Company in advance the charges computed as follows:

The total cost of the new pole, the removal of the old pole, the transferring of the Company's attachments from the old to the new pole and such other costs, if any, necessitated by CATV requirements, less the total of the following: accrued depreciation on the old pole, salvage, if any, and the cost of such portion of the new old pole, salvage, if any, and the cost of such portion of the new pole, if any, which represents space reserved for the use of the Company greater than that provided for them on the old pole and appropriate contribution by any other company attached thereto.

X.8 RIGHTS OF WAY AND LEGAL AUTHORITY

BY: *Jordan Chel*

X.8.1 Upon application for attachment, the CATV company shall submit evidence satisfactory to the Company of its authority to erect and maintain its equipment within public streets, highways, and other thoroughfares and shall secure any necessary franchise, license, permit, consent, easement or rights-of-way from Federal, State or municipal authorities or owners of property now or hereafter required to construct and maintain such equipment at the location of facilities of the Company which it desires to use. In the event any such franchise, license, permit, consent, easement or right-of-way is

X.7 Rights of Way and Legal Authority (Continued)

(N)

X.8.1 revoked or is thereafter denied to the CATV company for any reason, permission to attach to Company poles so affected shall immediately terminate, the CATV company shall forthwith remove its equipment from Company facilities.

X.8.2 Upon notice from the telephone company to the CATV company that the removal or cessation of the use of any pole has been requested or directed by Federal, State, or municipal authorities, or property owners, permission to attach to such pole shall immediately terminate and the CATV company shall forthwith remove its equipment therefrom.

X.9 PROTECTION AGAINST CLAIMS FOR LIBEL AND SLANDER, COPYRIGHT AND PATENT INFRINGEMENT

X.9.1 The CATV company shall indemnify, protect, and hold harmless the Company from and against any and all claims for libel and slander, copyright and/or patent infringement arising by reason of attachment of CATV equipment to Company poles, pursuant to this tariff.

X.10 LIMITATIONS

X.10.1 No use, however extended, of the Company's poles under this tariff shall create or vest in the CATV company any ownership or property right in said poles. Nothing herein contained shall be construed to compel the Company to maintain any of its facilities for a period longer than that demanded by its other service requirements.

X.10.2 The Company reserves to itself, its successors and assigns the right to maintain its poles and to locate and operate its facilities in such manner as will best enable it to fulfill its other public service requirements. The Company shall not be liable to the CATV company for any interruption to the service of the CATV company or for any interference with the operation of the equipment of the CATV company.

CATV POLE ATTACHMENT

X.12 SURETY

(N)

X.12.1 The CATV company shall furnish a bond for each individual CATV system utilizing pole attachments under this tariff to guarantee the payment of any sum which may become due to the Company for rental, penalty, and make-ready charges and work performed by the Company, pursuant to this tariff, for the benefit of the CATV company or as a result of default or forfeiture by the CATV company. The amount of such bond shall be based upon the following:

- (1) For attachments to 500 poles or less, a bond of \$5,000 shall be furnished, except as provided in (3) below.
- (2) For attachments to poles in excess of 500, further surety in the amount of \$5,000 for each additional 500 poles, or any increment thereof, shall be furnished except as provided in (3) below.
- (3) After one year following the completion of construction of an individual CATV system and its placement into operation, the CATV operator may request that the required amount of bond be reduced. Upon the Company's receipt of satisfactory evidence that all mechanics, workmen, and material men who furnished services, labor or materials in the construction of such CATV system, and all taxing authorities, have been paid all amount due them, the Company will reduce the amount of bond required to the following:

- (a) For attachments to 500 poles or less, a bond of \$2,000 shall be furnished.

- (b) For attachments to poles in excess of 500, further surety in the amount of \$2,000 for each 500 poles, or any increment thereof, shall be furnished.

X.16 RENTAL CHARGES

(C)

X.16.1 The CATV company shall pay to the Company, annually in advance, the rental charges specified below. Annual billing shall be made on December 31 of each year.

X.16.2 From the effective date of the permit for previously unbilled attachments which shall be the date when the Company's facilities are made available for use by the CATV company, to the date of the next annual billing, the annual rental rate shall be payable on a prorated basis with such fractional amount submitted with the application for attachment.

X.17 RENTAL RATE

Per 2-User Pole, Annually	\$3.62
Per 3-User Pole, Annually	\$1.51

X.18 PENALTY CHARGES

X.18.1 Where pole attachments have been made without receipt of authorization from the Company, a penalty charge of twice the amount of the annual rental rate shall apply, in lieu of the annual rental rate, from the date of the last previous physical inventory of pole attachments or inspection required pursuant to the rules of the Kentucky Public Service Commission, whichever is most recent. Additionally, a special "make-ready" charge, equal to twice the amounts which would have been due and applicable if the attachment had been properly authorized, shall apply.

EXHIBIT A

PART II

CATV Annual Carrying Charge

The annual carrying charge as based on the 1982 Annual Report, Form M, to the Public Service Commission of Kentucky, and Commission Orders, as follows:

A. Depreciation

Depreciation on pole lines is stated at Page 31, Line 7, Column (d).

B. Taxes

The formula for calculating taxes is:

$$\frac{\text{Page 16, Lines 6 + 7, Column (b)}}{\text{Page 12, Line 10, Column (b)}}$$

C. Administration and Overhead

The formula for calculating administration and overhead is:

$$\frac{\text{Page 61, Lines 36 + 45 + 51 + 61, Column (b)}}{\text{Page 12, Line 10, Column (b + c)}} \times 2$$

D. Maintenance

The formula for calculating maintenance is:

$$\frac{\text{Page 60, Line 1, Column (b)}}{\text{Page 19, Line 11, Column (b + h)}} \times 2$$

E. The rate of return should be the most recent rate of return authorized by the Commission.

CATV ANNUAL CARRYING CHARGE

Cost Justification
12-31-82

I. Weighted Average Cost of 30-35 Foot Poles: Two User

	<u>Quantity</u>	<u>Cost</u>
30 foot poles	1050	152,376
35 foot poles	<u>291</u>	<u>42,777</u>
	<u>1341</u>	<u>195,153</u>

Average Cost/Pole = $\$195,153 \div 1341 = \145.53

Average Cost x Bare Pole Factor = $\$145.53 \times .78\% = \114.52

II. Annual Carrying Charges:

A.) Depreciation = 4.00%

B.) Taxes =

$\frac{\text{Page 16, Lines 6 + 7, Column (b)}}{\text{Page 12, Line 10, Column (b)}} = \frac{84,291}{8,481,603} = .99\%$

C.) Administration and Overhead =

$\frac{\text{Page 61, Lines 36+45+51+61, Column (b)}}{\text{Page 12, Line 10, Column (b + c)}} = \frac{342,842}{8,736,358} = 3.92\%$

D.) Maintenance =

$\frac{\text{Page 60, Line 1, Column (b)}}{\text{Page 19, Line 11, Column (b + h)}} = \frac{3,253}{448,275} = .72\%$

E.) Rate on Investment: From PSC Case No. 8020 7.93%

F.) Summary of Annual Charges:

Depreciation	4.00%
Taxes	.99%
Administration	3.92%
Maintenance	.72%
Return on Investment	7.93%
Total Annual Charge	<u>17.56%</u>

III. Calculation of Attachment Annual Charge:

= (Average Pole Cost) x (Bare Pole Factor) x (Annual ~~EFFECTIVE~~) x (.1818)

= $(\$145.53) \times (.78\%) \times (17.56\%) \times (.1818) = \3.62
